Chakib Richani was selected among the top 100 Architects worldwide by Architectural Digest Magazine, January 2010. He has developed a distinguished character in architecture. His work is minimalist in its purity, sophisticated simplicity and infinite attention to details. Yet, it is by no means ascetic.

Richani's spaces with their exceptional proportions transmit a feeling of serenity: a color palette limited to sober colors and decorative elements almost absent. Nothing to hamper vision... or mind. To complement these spaces, Chakib Richani Collection was created.

Items in the Collection are the outcome of an innovative architectural interpretation of furniture and accessories, aiming for pure form and immaculate function. They are simple, almost minimalist, volumes expressed in masterfully-crafted rich materials.

Many items of the Collection were designed for particular spaces of the architects' projects. Each has a name, a story, a life of its own. However, they are not products of a fad or fashion and hence can fit beautifully in many different spaces. Some items are produced in very limited numbers, not exceeding twelve pieces, to preserve their originality of design and execution.

The creations of the Chakib Richani Collection are timeless works of art...to be used, displayed and treasured always.

## DISPLACEMENT

### Description:

Ashtray in marble  
with a removable  
stainless steel inlay

### Available Finishes:

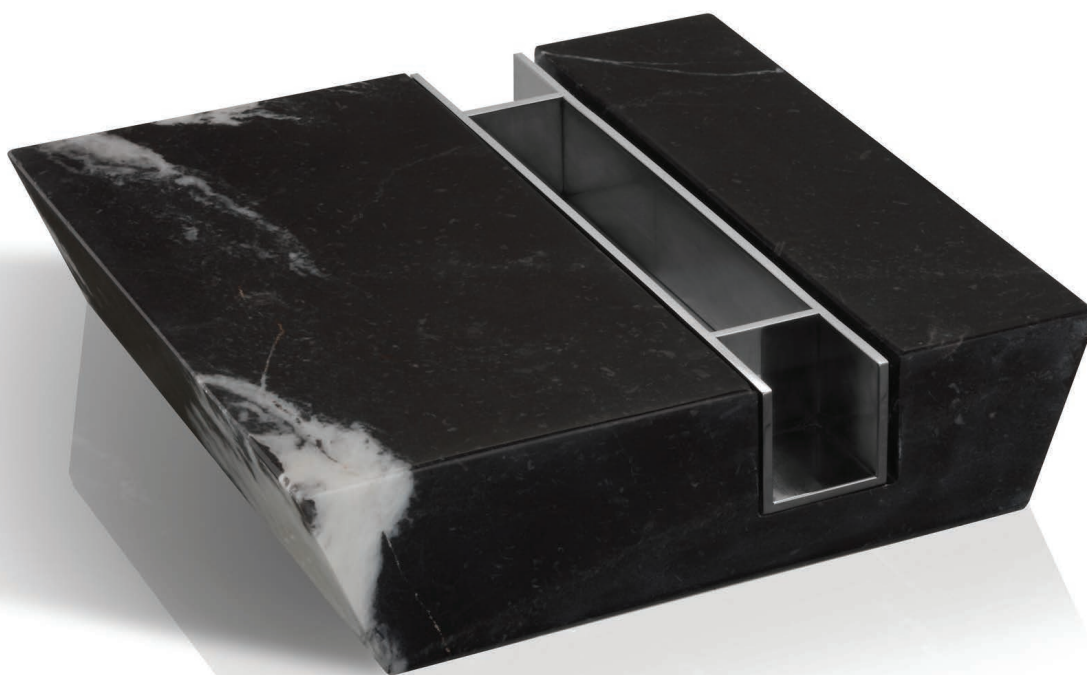

Carrara,  
Black Marquina,  
Brown Emperador,  
Arabescato
